## PROTECT AND ENJOY YOUR INVESTMENT YEAR IN, YEAR OUT

*Landscape lighting design is an investment in property. Successful design adds value, creates an external focal point that encourages usage and aids in extracting maximum return on your investment if you decide to sell.*

But a poorly maintained exterior living space can become a costly exercise. Without proper maintenance landscape lighting become lacklustre and inefficient. Proper maintenance is an insurance policy; it ensures longevity of your asset and avoids costly repairs in the future.

Light on Landscape has been a trusted supplier and maintenance provider to the Landscape Design industry for almost 10 years. Our tailored maintenance services help safeguard your investment, placing your outdoor living spaces in the best possible light.

### ***Professionalism and unparalleled service***

Light on Landscape are specialists at maintaining your external living space as a stunning visual centrepiece for years to come. Because our business encompasses all aspects of landscape lighting design, we have the knowledge and experience to formulate a maintenance package for you that keeps your environment safe and energy efficient, all year round.

Landscape Designer: Paul Bangay

### ***Peace of mind throughout the year***

Beautiful landscape lighting doesn't stay perfect; it needs to be protected against the seasons and the elements. With time, gaskets and lamps need replacing and fixtures need cleaning and lubrication, in order to continue working properly.

Our expert maintenance staff can tailor a maintenance package to suit your needs, and ensure that your outdoor vista looks perfect, year in, year out.

*“Garden lighting is by default high maintenance and even the best materials deteriorate when exposed to the elements. A thorough and regular maintenance program serves as my insurance policy against breakdowns and costly repairs. I can rely on Light on Landscape to ensure my garden lighting works beautifully all year round.”*

*George Phillips*
